Air Targets and Other Points of InterestSwinoujscie Urban AreaIdentification Data

1. Inclosure A attached to this report is a memory sketch of the town of Swinoujscie based on a non-standard town plan, scale 1:9400 (approximate). Following is the legend to this memory sketch. Numbers in parentheses refer to numbers on the sketch.
  - (1) Fence - wooden boards, approximately two meters high. It surrounded the Soviet Naval Base. Soviet naval personnel and their dependents were billeted at this base. The majority of the buildings at the base were two and three-story brick villas. The base included shopping and school facilities for dependents.
  - (2) Fence - barbed wire surrounding the Soviet Naval Hospital. The hospital included two three-story brick buildings and several barracks.
  - (3) Polish Naval Caserne<sup>1</sup>
  - (4) Sisters of Mary Monastery - a two-story brick villa, 25mx20m; gable roof covered with tile. The villa was surrounded by a garden.
  - (5) Former German Officers Casino - partly destroyed and not in use. The building was two-story brick construction. There was a tower on the roof of this building. The height of the tower was four meters from the top of the roof. An antiaircraft artillery observation post was located in the tower. It was manned by two soldiers from the infantry battalion stationed at the Polish Naval caserne, (Point 3 above), at all times.
  - (6) Polish Naval Officers Club - an "L" shaped three-story brick construction with gable roof covered with tile. The dimensions of the main part of the building were 35x10m, and of the wing, 20x8m.
  - (7) Society of Children's Friends School (Towarzystwo Przyjaciol Dzieci) - an "L" shaped three-story brick construction with flat roof. The dimensions of the main part of the building were 70mx12m, and of the wing, 50mx12m. Approximately 350 children attended this school. This was one of the two elementary schools in Swinoujscie.
  - (8) "Wybrzeze" Construction Company - the offices and workshops of this company were located in one two-story brick building and several barracks.

- (21) Office Building - a two-story brick construction, 45mx10m; gable roof covered with tile. The following offices were located in this building:
- County Security Committee (Powiatowy Komitet Bezpieczeństwa).
- County Militia Command.
- Town Militia Precinct.
- (22) County Union of Lawyers Cooperatives (Powiatowy Zespół Spółdzielni Adwokackiej) - a two-story brick villa, 8mx8m; gable roof covered with tile.
- (23) Soviet Garrison Jail - a two story brick construction, 20mx10m; gable roof covered with tile. Source stated that this jail was always full. The general charges were: Stealing, drinking, and disobeying orders.
- (24) Workers Hotel - a three-story brick construction, 20mx10m; flat roof. This hotel was for the employees of the Deep Sea Fishing and Fishing Service Enterprise "ODRA" (Przedsiębiorstwo Polowań Dalekomorskich i Usług Rybackich).
- (25) Kindergarten - a two-story brick construction, 10mx8m; gable roof covered with tile. It was open from 0600 to 2000 hours. About 50 children attended it daily. There were five nurses taking care of the children.
- (26) Co-operative Store - a three-story "L" shaped brick construction with a flat roof. The dimensions of the main part of the building were 30mx9m, and of the wing 20mx9m. This store was only for members of the UB (Secret Police) (Urząd Bezpieczeństwa Publicznego) and their dependents.
- (27) County Administration of the Polish Red Cross - a three-story brick construction; gable roof covered with tile. Only the first floor of this building was occupied by the Polish Red Cross. The rest of the building was living quarters.
- (28) Post Office - a two-story brick construction, 30mx12m; gable roof covered with tile. This was the only post office in Swinoujście.
- (29) Elementary School - a three-story brick construction, 30mx12m; flat roof. "Dom Harcerski" (boy scout club) and children's tourist hotel were also located in this building.
- (30) Military Construction Company - a two-story brick construction, 18mx12m; flat roof.
- (31) Dom Książki - book store; a three-story brick construction; gable type roof covered with tile. Only the first floor was occupied by the store, the rest of the building was living quarters.

- (9) Building - a three-story brick construction with flat roof. The following offices were located in this building:
- County Committee of the Polish United Worker's Party (Polska Zjednoczona Partia Robotnicza - PZPR).
- County Representative for the Buying of Livestock (Powiatowy Pełnomocnik Skupu Zywea).
- (10) County Attorney's Office (Prokuratura Powiatowa) - a two-story brick villa, 8mx7m; gable roof covered with tile. The living quarters of the county attorney were also located in this building.
- (11) County Court - a three-story brick construction with flat roof.
- (12) Power Sub-Station - a two story brick construction, 30mx10m; low gable roof covered with tile. This station was subordinate to the Poznan Electrical Association, Western Region, Swinoujscie Section (Zjednoczenie Elektryczne Poznan, Okreg Zachodni, Oddzial w Swinoujściu).
- (13) Gymnasium - a single story brick construction, 30mx15mx8m. It belonged to the Sport Association "Gwardja". Only members of the Polish Security Forces belonged to this association.
- (14) Polish Tourist and Local Studies Society (Polskie Towarzystwo Turystyczno - Krajoznawcze) - a two story brick construction, 20mx10m; gable roof covered with tile.
- (15) Evening School - an "L" shaped three-story brick construction. The dimensions of the main part of the building were 30mx12m, and of the wing, 30mx12m.
- (16) Dormitory - a two story brick construction, 20mx10m. Flat roof. This dormitory was for the students of the evening school Point 15 above.
- (17) Town Dispensary (Osrodek Zdrowia) - a two-story brick construction, 15mx9m; gable roof covered with tile.
- (18) Soviet Military Dependents Quarters - a two-story brick construction, 20mx10m; gable roof covered with tile.
- (19) Horse Barn - a single-story brick construction, 30mx10mx6m; low gable roof covered with tarpaper. This horse barn belonged to the Soviet Naval Base, Point 1 above. There were about 30 horses in the barn.
- (20) Naval Billets - a two-story brick construction, 15mx8m; gable roof covered with tile. There was approximately a platoon billeted here. They took care of the horses located in the horse barn Point 19 above.

- (32) Storehouse - a three-story brick construction; gable roof covered with tile. This storehouse belonged to the General Consumers' Cooperative (Powszechna Spoldzielnia Spozycow).
- (33) Office Building - a four-story brick construction, 25mx12m; gable roof covered with tile. Offices of the General Consumers' Cooperative were located in this building.
- (34) Seventh Registration Precinct - a three-story brick construction; gable type roof covered with tile. Only the first floor was occupied by this office, the rest of the building was living quarters.
- (35) Officers Casino - a three-story brick construction, 20mx10m; gable roof covered with tile. It was only for officers of the Polish Security Forces.
- (36) Fire House - a wooden barrack, 20mx10mx3m; low gable roof covered with tarpaper. This was the only civil fire house on the west side of the canal. The fire brigade consisted strictly of volunteers. Source believed they had only one fire engine. The Soviet and Polish Navy had their own fire brigades. They assisted the civil fire brigade when needed.
- (37) Kindergarten - a two-story brick villa, 15mx10m; gable roof covered with tile. It was only for Polish Naval personnel dependents. About 20 children attended this kindergarten. There were two nurses taking care of the children.
- (38) Polish Navy Hotel - a two-story brick construction, 35mx10m; gable roof covered with tile. Transferred personnel and dependents were billeted here.
- (39) Fence - partly wood and partly barbed wire. This fence bounded the Soviet Naval Base on the west.
- (40) Housing Area - occupied by Soviet officers and NCO dependents; A number of two-story brick constructions with gable roofs.
- (41) Billets - a three-story brick construction, 25mx10m; gable roof covered with tile. Approximately two companies of Soviet Marines were billeted there.
- (42) Barrack - a wooden construction, 20mx8mx3.5m; low gable roof covered with tarpaper. Trucks, searchlights, transformers, and barrels of POL were located there.
- (43) Same as Point 42 above.
- (44) Same as Point 42 above.
- (45) County National Council (Powiatowa Rada Narodowa) Finance Department - a three-story brick construction with a gable roof covered with tile. Only the first two floors of this building

- (53) Billets - a three-story brick construction, "C" shaped. The dimensions of the main part of the building were 35mx8; gable roof covered with tile. Soviet Naval officers and dependents were billeted there.
- (54) Billets - a two-story wood construction, 12mx9m; gable roof covered with tarpaper. Soviet army civilian female employees were billeted there.
- (55) Billets - the same description as Point 54 above.
- (56) Billets - a single-story wood construction, 30mx10mx4m; low gable roof covered with tarpaper.
- (57) Smokestack - a brick construction about 20 m high. It was part of the central heating station Point 189 below.
- (58) Ship Repair Shop - an "L" shaped single-story brick construction. The dimensions of the main part of the building were 40mx15m, and of the wing 6mx8m; gable roof covered with sheet iron over the main part of the building, and glass roof over the wing. This shop serviced the Soviet Navy. Only small military vessels were repaired there. The shop worked only periodically. About 50 sailors worked there when the shop was in operation.
- (59) Billets - a two-story brick construction, 18mx8m; gable roof covered with tarpaper. Soviet naval personnel were billeted there.
- (60) Storehouse - an open wall construction, 40mx8mx3.5m; low gable roof covered with tarpaper. Lumber and some machinery were located there.
- (61) Tower - a brick construction, four meters in diameter and about 20m high. This tower was not used when observed by source, and he did not know what it was used for formerly.
- (62) Dry Dock - a basin equipped with pumps to pump the water out after a ship entered. Small military vessels were repaired there.
- (63) Barrack - a single-story brick construction, 8mx8m; low gable roof covered with tarpaper.
- (64) Barrack - same description as Point 63 above.
- (65) Lumber Storehouse - an open wall wood construction, 40mx8mx3.5m; low gable roof covered with tarpaper.
- (66) Messhall - a single-story brick construction, 5mx5mx3m; low gable roof covered with tarpaper. Personnel working at the docks and in the dock area ate there.

- (67) Barrack - a single-story wood construction, 10mx5mx3m; low gable type roof covered with tarpaper. This barrack was occupied by the Soviet Navy. The area southwest of this barrack was used as storage place for equipment of the hydro-graphical section of the Soviet Navy.
- (68) Barrack - a single-story wood construction, 18mx8mx3m; low gable roof covered with tarpaper. Artillery targets were stored and repaired there. There also was a mechanical device for launching the floating targets and pulling them back up on land again.
- (69) Old Citadel - it was used by the Soviets.
- (70) Ammunition and Weapons Storehouses - four barracks, wood construction, 20mx10mx3m; low gable roof covered with tarpaper.
- (71) Tower - a wood construction. The tower was for the guard guarding Point 70 above. It was occupied 24 hours a day.
- (72) Carpenter Shop - barrack, wood construction, 20mx8mx3m; low gable roof covered with tarpaper.
- (73) Boats Storage - a wood construction, 8mx6mx4m. Boats and yachts of the Soviet Navy were located there.
- (74) Observation Tower - brick construction, about 22m high. Soviet Navy and antiaircraft artillery observation points were located there.
- (75) Pig Pen - property of the Soviets.
- (76) Billets - a two-story brick construction; gable roof covered with tile. One company of Soviet sailors was billeted there.
- (77) Billets - same description as Point 76 above.
- (78) Old Fortress - source believed that it was used by the Soviets as a storage for beach artillery shells.
- (79) Garage - a single-story brick construction, 30mx8mx5m; low gable roof covered with tile. Six Soviet trucks, Dodge and ZIS, and two passenger cars were kept there.
- (80) Barrack - property of the Soviets. Source believed it to be a horse barn.
- (81) Fence - barbed wire, about 1.5m high.
- (82) Soviet Bunker - about eight Soviet soldiers were located there.
- (83) Polish Navy Observation Point - a 12m high tower of brick and concrete construction. It was equipped with radio, telephone and a signal light. About six people worked and lived there.

CONFIDENTIAL

CONFIDENTIAL

- 9 -

50X1

- (84) Polish Merchant Marine Observation Point - a 24m-high tower of wood construction. It was equipped with a telephone and a signal light. A navigational light was located on the top of the tower. Only one man was on duty at a time. He worked 24 hours and then had 48 hours off.
- (85) Observation Point - a small wooden shack. It was occupied by the Border Guard (Wojsko Ochrony Pogranicza - WOP). There were two men on duty during the day, and three men at night. They controlled all vessel traffic entering and leaving the channel. They were equipped with a telephone and search light. All identified vessels were reported by telephone to the WOP representative with the port authorities. All unidentified vessels were reported to the WOP operations officer in the building, Point 162 below.
- (86) Guard Tower - wood construction about four meters high. A Soviet guard was located there. His duty was to guard the Soviet base and storehouses.
- (87) Old Fortress - source believed that this was an ammunition storage area.
- (88) Billets - Soviet military personnel working at the Soviet Naval Headquarters were billeted there.
- (89) Old Fortress - a brick construction covered with about four meters of ground. It was used by the Soviets as an ammunition and weapons storehouse.
- (90) Storehouse - a barrack, brick construction, 20mx6mx3m; low gable roof covered with tarpaper. Contents unknown.
- (91) Storehouse - same description as Point 90 above.
- (92) Housing Area - Soviet officers and dependents were billeted there.
- (93) Barracks Area - no further information.
- (94) Workers Settlement "Warsaw" - it was under construction when last observed by source in August 1955. Workers from the fishing base were supposed to be quartered there. There was also a plan to resettle the population from the west side of the channel to this settlement.
- (95) Storehouse - same description as Point 90 above.
- (96) Food Storehouse - barrack, brick construction, 15mx6mx3m; low gable roof covered with tarpaper.
- (97) Storehouse - same description as Point 90 above.

- (98) Building - a single-story brick construction, 10mx10m; gable roof covered with tile. This building was occupied by the Soviets.
- (99) Building - a two-story brick construction, 35mx10m; gable roof covered with tile. Soviet military bakery, messhall, radio station and food storehouse were located there.
- (100) Building - a single-story brick construction, 8mx4mx5m; gable roof covered with tile. Contents unknown.
- (101) Building - same description as Point 100 above.
- (102) Building - an "L" shaped, single-story brick construction. The dimensions of the main part of the building were 25mx9mx5m, and of the wing 20mx9mx5m. A mechanical shop for crane repair and a clothing storehouse were located there. This building belonged to the port authorities. This building was located at the so called "Bunker Base." The bunker base was a storage place for coal. There were several cranes for loading and unloading coal from the ships.
- (103) WOP Observation Point - a wooden tower, approximately seven meters high. There was one man on duty at all times.
- (104) Electrical Equipment Repair Shop - a single-story brick construction, 10mx8mx3m; low gable roof covered with tarpaper. It was located at the bunker base.
- (105) Boiler Room - a single-story brick construction, 15mx8mx7m; gable roof covered with tarpaper.
- (106) Guardhouse - a single-story brick construction, 5mx5mx3.5m; low gable roof covered with tarpaper. Women industrial police guards guarding the bunker base stayed there.
- (107) Barrack - wood construction, 7mx5mx2.5m; low gable roof covered with tarpaper. This was the waiting room for the ferry passengers.
- (108) Building - a two-story brick construction, 10mx7m; low gable roof covered with tarpaper. Port authorities and bunker base offices were located there.
- (109) WOP Caserne - a two-story brick construction, 12mx10m; low gable roof covered with tarpaper. A concrete wall, about 1.80m with about .40m of barbed wire on top surrounded the building. Approximately 80 WOP members were billeted there.
- (110) Building - a single-story brick construction, 5mx4m; low gable roof covered with tarpaper. Two men were here on stand-by in case of fire alarm.

- (111) Fire House - an "L" shaped, two-story brick construction. The dimensions of the main part were 15mx8m and the wing 15mx7m; gable type roof covered with tarpaper. Two fire engines were located there. The fire brigade consisted of 12 men.
- (112) Warsaw Militia Precinct - a single-story brick construction; low gable roof covered with tarpaper. The staff consisted of a senior sergeant in charge and three men.
- (113) Building - a single-story brick construction, 18mx9mx4m; low gable roof covered with tarpaper. Peasant's Mutual Aid Sales Center (Centrala Handlowa Samopomocy Chlopskiej) was located there.
- (114) Locomotive Repair Shop - a single-story brick construction with glass roof. Minor locomotive repairs and inspections were performed there. Four locomotives could enter the shop at one time.
- (115) Food Storehouse - a single-story brick construction, 30mx10mx4m; low gable roof covered with tarpaper. It belonged to the Polish Navy.
- (116) Electrical Sub-station - a brick tower, 3mx3mx10m.
- (117) Storehouse - a brick construction. It belonged to the Baltona Sales Enterprise (Przedsiębiorstwo Handlowe Baltona). This enterprise supplied the merchant marine and fishing vessels with everything necessary.
- (118) Storehouse - same description as Point 117 above.
- (119) Railroad Storehouse.
- (120) Railroad Storehouse.
- (121) Railroad Storehouse.
- (122) Storehouse - same description as Point 112 above.
- (123) Concrete Wall - it was about two meters high with 30cm of barbed wire on top. It surrounded the area of the Deep Sea Fishing and Fisherman's Service Enterprise "ODRA" (P.P.D i U.R. "ODRA" Przedsiębiorstwo Polowow Dalekomorskich i Uslug Rybackich). It was called the Fisherman's Port. Points 124 to 130 inclusive belonged to this enterprise.
- (124) Building - wood construction. Source was unable to elaborate.
- (125) Production Hall - a single-story brick construction, 50mx15mx7m. Fish were sorted and salted in this hall.
- (126) Production Hall - a multi-story brick construction, 60mx15mx25m. Fish were packed and canned in this hall.

- (127) Administration Building - a two-story brick construction, 18mx8m.
- (128) Building - same description as Point 124 above.
- (129) Building - same description as Point 124 above.
- (130) Building - same description as Point 124 above. Source stated that there were several foundations for new buildings in this area.
- (131) Building - a single-story brick construction, 20mx8m. This building was occupied by the Soviet Navy.
- (132) Building - same description as Point 131 above.
- (133) Building - same description as Point 131 above.
- (134) Hangar - a reinforced brick construction, 30mx20mx7m; flat roof covered with tarpaper. Source believed that this hangar was used by the Soviets as a truck garage. During World War II, the Germans used this hangar for sea planes. Source stated that there were no sea planes located in this area after World War II.
- (135) Building - it was occupied by the Soviet Navy.
- (136) Hangar - a reinforced brick construction, 25mx10mx7m; flat roof covered with tarpaper. Source believed it to be empty.
- (137) Hangar - same description as Point 136 above.
- (138) Building - it was occupied by the Soviet Navy.
- (139) Hangar - a reinforced brick construction, 25mx12mx7m; flat roof covered with tarpaper. The contents of this hangar were unknown to source.
- (140) Hangar - an "L" shaped, reinforced brick construction. The dimensions of the main part of the hangar were 25mx12mx7m, and of the wing, 25mx10mx7m; flat roof covered with tarpaper. The contents of this hangar were unknown to source.
- (141) Food Storehouse - a single-story brick construction, 20mx8m; low gable roof covered with tarpaper. This storehouse was Soviet property.
- (142) Building - a single-story brick construction, 15mx7m; low gable roof covered with tarpaper. One platoon of Soviet sailors were billeted there. They took care of the storehouse Point 141 above.
- (143) Hangar - same description as Point 134 above.

- (144) Barrack - a single-story wood construction, 20mx8m; flat roof covered with tarpaper. It was occupied by the Polish Port Platoon. There was a total of about 60 persons in the platoon. They occupied this point and Points 145, 146, 148 and 149.
- (145) Barrack - same description as Point 144 above.
- (146) Workshop - a single-story brick construction, 10mx6m; gable roof.
- (147) Electric Power Plant - partly destroyed and not in use.
- (148) Workshop - same description as Point 146 above.
- (149) Barracks - same description as Point 144 above. Headquarters, messhall and club were located there.
- (150) Barrack - single-story wood construction, 18mx8m; flat roof covered with tarpaper. It belonged to the Fishing Enterprise "Bellona." A net making and repair shop, small ice plant and fish storage were located in this barrack.
- (151) Office Building - a single-story brick construction, 20m long. The offices of the city gas works were located there.
- (152) Gas Works - a single-story brick construction, 15mx8mx8m. Gas and coke were made in this building.
- (153) Gas Tank - a 10m high and 8m in diameter steel construction.
- (154) Housing Block.
- (155) Building - a two-story brick construction, 15mx8m; gable roof covered with tile. This building was occupied by the WOP.
- (156) Storehouse - an "L" shaped single-story partly wood partly brick construction. The dimensions of the main part of the barrack were 15mx6m, and of the wing 12mx6m. It belonged to the WOP.
- (157) Barrack - an open wall construction; flat roof covered with tarpaper. It was used by the WOP to store small boats.
- (158) Barrack - a single-story brick construction, 15mx9m; flat roof covered with tarpaper. It was occupied by the WOP.
- (159) Barrack - same description as Point 158 above.
- (160) WOP Caserne.
- (161) Barrack - a single-story brick construction, 10mx8m; flat roof covered with tarpaper. It was occupied by the WOP.
